

Richard Norman

DEVELOPER AND STUDENT

Results-driven computer science undergraduate seeking to leverage years of software development and customer experience. A certified Microsoft Technology Associate in Software Development makes a well rounded energetic student who knows both technical and customer sides of a business. Adaptable and willing to learn attitude in any work environment. Passion for success and a great team player. Enjoys any challenge and the glory that comes with overtaking it. Released several apps and games for iOS and the Xbox One Store and takes delight in building electronics.
